五. Instructions
（一）、Power on/off
Switch the button to power on/off the speaker.

(二) Bluetooth connection
    Pairing Rock to your Smart phone (smart phone should be away from your speaker within 10

    meters)

    1. Activate pairing mode on Rock by switching "ON/OFF" button to "ON". The Bluetooth LED

    light will flash in blue.

     2. On your smart phone, navigate to the Bluetooth function (refer to the smart phone owner's

    manual to locate Bluetooth function).

     3. Select "Set Up" Bluetooth or turn "ON" Bluetooth.

     4. Select "Search" or "Discover" devices. Select "A32". You will hear the

     voice "the Bluetooth device is connected successfully".

   6. If requested type the password 0000

   7. Press the Enter key.

After completing the steps above, a message on your smart phone will appear to confirming that your device is now paired/connected.

In case of unsuccessful pairing, Push to "OFF" and restart it to "ON".

If you turn off the device, but the Bluetooth on your smart phone remains open, when you restart the device, the Bluetooth will be connected automatically.

Remarks:

In Bluetooth mode, the consumer can use the Bluetooth device or speaker to control music playing, it is easy and convenient. When the speaker is in low power, you will hear a voice "low power, pls re-charge it", and the buttons will be not workable due to the low voltage. The buttons control will turn to work again after charging.

Note: Some Bluetooth devices are in very low Bluetooth version, and can't support the button control, it's not due to the quality of the speaker.

(三) Mobile Hands-free call
Under Bluetooth pairing mode:
1. Answer the call

Short Press Answer the call.
2. Hang off the call

Short Press again to hang off the call
3. Dial Back the call

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
